

Dickinson College partners with International SOS, the world's leading provider of medical and security assistance services to keep you healthy, safe and secure while you travel or live abroad. Download this App today so you get immediate access to a medical, security or logistical expert in time of need or for routine advice. You'll also get up-to-date medical and security advice and real-time alerts for the locations where you are traveling.

The App is supported on all leading Smartphones including Blackberry, iPhone and Android. To download, open your Smartphone's browser and go to app.internationalsos.com. Once downloaded you will need **Membership # 11BCAS626216** to log in.

With this App on your SmartPhone, you can:

- Quick dial the nearest International SOS Assistance Center for help in an emergency, or any advice about your health or safety.
- View up-to-date medical and security alerts about the location you're in or traveling to. That way, you always know what's going on around the world and can change plans quickly, if needed.
- Receive essential medical and security advice and information about your destination from a trusted expert.
- Access medical and security information on over 200 countries worldwide.

Even in low-risk destinations, you may unexpectedly need advice or assistance. From replacing lost travel documents to getting emergency medication, with the International SOS Assistance App, help is just a click away. Think of it as your instant access to assistance.

In addition, this App serves as an electronic copy of your membership card. As you continue your travels, we encourage you to take advantage of this technology, as well as this membership!

Our technical team can work with you and your IT department to manage any technical issues. Simply contact app@internationalsos.com and someone will get back to you quickly.
