Please check the calendar before making final travel plans or arranging for visits. Parental visits and your own personal travel should be confined to the vacation periods or the period at the end of the semesters or other times when classes and exams are not in session.

Students should be aware that professors will penalize repeated (more than 1) unexcused absences by lowering the students' final grade. A "no-credit" grade will be issued to a student with more than 2 unexcused absences. An excused absence is justified by a medical certificate.
